# Mi Bluetooth Selfie Stick

## Instrucciones:

1. Prepare the phone holder. Pull up the holder, turn it 90° so it makes a cross shape with the stick rod, and then rotate it 180° so it faces the same direction as the front of the stick.
2. Fix the phone on the holder: Turn the phone holder to the appropriate position, then pull from the phone holder edge and secure the phone between both ends. Make sure the volume and on/off button of your phone are not pressed by the holder.
3. Press the button on the stick for 3 seconds and pair your phone and the Selfie Stick using the Bluetooth Settings on the smartphone.
3. Expand the selfie stick rod to the desired length. you can now take a picture by pressing the shoot button on the stick handle.
